## **Producer Price Index in Iran**

### **Khordad 1396**

**(1390 = 100)**

The Producer Price Index (PPI) went up 0.4 percent in Khordad 1396. This index was virtually unchanged in Ordibehesht 1396. The index level of 237.2 was 8.7 percent higher than in Khordad 1395.

For the first 3 months of 1396, the PPI edged up 8.8 percent, compared to the similar period in 1395.

This index moved up 6.5 percent for the 12 months ended in Khordad 1396.

**Agriculture, forestry and fishing:** In Khordad, a 3.7-percent rise in the prices of this group can be traced to the growths in the indices for eggplant, squash, root vegetables, tomato, leaf vegetables, grape, stone fruits, animal production and Persian Gulf fish. In contrast, prices for watermelon, dates, strawberry and aquaculture went down.

**Manufacturing:** The Manufacturing group index declined 0.9 percent, which was mostly due to the falls in the indices for jet propulsion fuel (type 4), crude oil, manufacture of basic chemicals, manufacture of fertilizers and nitrogen compounds, manufacture of plastics and synthetic rubber in primary forms, soap and hand washing liquid, ordinary brick, iron sheet, iron slab and copper concentrate offset increases in the indices for slaughter livestock and poultry, canned fish, yogurt, dry tea, acrylic thread, paper (50-90 gsm),

raffinate, manufacture of plastic products, staple copper, metal cans, transformer, cooler, wire of car, seat of car and furniture.

**Services:** Increases in the indices of urban bus trip fare, movie ticket, out-of -school tuition fees, and hairdresing and other beauty treatment mainly led to 0.4 percent rise in the services group.
