3- - Housing, Water, Electricity, Gas and other Fuels	0.6		22.1	

Consumer Price Index in Urban Areas in Iran

Farvardin 1388

(1383=100)

The Consumer Price Index (**CPI**) went up 1.1 percent in Farvardin 1388. Showing the index point of 194.0, the **CPI** was 15.5 percent higher than the similar month in 1387.

The inflation rate increased 24.5 percent during twelve months ending Farvardin 1388.

During Farvardin 1388, the food and beverages group index increased 2.7 percent, mainly due to the increase of the prices for “orange” by 22.1 percent, “apple” 13.2 percent, “tomato” 26.5 percent, “onion” 32.6 percent, “cucumber” 13.3 percent, “potato” 21.5 percent, “tangerine” 21.8 percent, “mutton” 2.1 percent, “grapes” 9.5 percent, “lime” 16.0 percent, “pomegranate” 9.1 percent, “beef” 1.0 percent, “banana” 4.9 percent, “kiwi fruit” 17.2 percent and “non-pasteurized cheese” 3.0 percent. In this group, there were some indices that decreased during Farvardin 1388 such as “poultry” by 4.7 percent, “rice” 1.5 percent, “watermelon” 5.3 percent, “green beans” 19.7 percent, “leafy green vegetables” 1.9 percent, “zucchini” 15.5 percent, “fish” 2.0 percent, “tomato paste” 0.5 percent, “carrot” 5.5 percent, “pasteurized butter” 1.4 percent and “pasta” 0.7 percent.

During Farvardin 1388, the tobacco group index went up 3.8 percent.

The clothing and footwear group index went up 0.5 percent, largely as a result of the increase in the “ready to wear clothing” index by 0.8 percent. In this group, the index of “footwear” went up 0.1 percent.

The housing, water, electricity, gas and other fuels group index rose 0.6 percent, mainly due to the increase of the indices for the “rental equivalence of

owner occupied houses” and the “rent of residential houses” each by 0.7 percent. In this month the index of “maintenance and repair services” went up 0.3 percent.

The furnishings, household equipment and routine household maintenance group index decreased 0.1 percent. This decline was principally due to the decrease of the “detergent (powder)” and “washing liquids” each by 1.1 percent and “carpet (machin-made)” 0.3 percent. However, in this month the indices for “furniture and furnishings”, “glassware, tableware and utensils” and “household textiles” groups rose 0.2 percent, 0.3 percent and 0.2 percent, respectively. The index of “household appliances” remained unchanged.

During Farvardin 1388, the medical care group index went up 0.6 percent, as a result of the increase in the indices for “medical, paramedical and dental services”, “hospital services” and “medical products, appliances and equipment” by 0.8 percent, 0.5 percent and 0.1 percent, respectively.

The transportation group index decreased 0.2 percent.

In this month the communication group index increased 0.2 percent.

The recreation and culture group index decreased 1.6 percent. This decline was largely due to the decrease of the “package holiday” index by 6.4 percent.

In this month the education group index was constant.

The restaurants and hotels group index rose 1.0 percent, principally due to the increase of the “food away from home” index by 0.7 percent.

The miscellaneous goods and services group index went up 1.3 percent.
