The housing, water, electricity, gas and other fuels group index rose 0.3 percent, mainly due to the increase of the indices for the “rental equivalence of owner occupied houses” and the “rent of residential houses” each by 0.3 percent. In this month the index of “maintenance and repair services” went up 0.3 percent.

The furnishings, household equipment and routine household maintenance group index remained unchanged. In this month the index of “furniture and furnishings, carpets and other floor coverings” group decreased 0.2 percent but the indices for “household textiles” and “household appliances” groups rose 0.3 percent and 0.1 percent, respectively. The index of “glassware, tableware and utensils” was constant.

During Ordibehesht 1388, the medical care group index went up 0.7 percent, as a result of the increase in the indices for “medical, paramedical and dental services” and “hospital services” each by 0.8 percent. The index of “medical products, appliances and equipment” rose 0.2 percent.

The transportation group index increased 0.1 percent. In this group, the indices for “transport services” and “operation of personal transport equipment” increased 0.8 percent and 0.5 percent, respectively, while the index of “personal transport vehicles” declined 0.7 percent.

In this month the education group index rose 0.1 percent.

The restaurants and hotels group index rose 1.0 percent, principally due to the increase of the “food away from home” index by 0.9 percent.

The miscellaneous goods and services group index went up 0.4 percent.
