1- Agriculture, Hunting, Forestry and Fishing	1.0		6.4	
2- Manufacturing	2.3		13.2	
3- Services	0.9		12.6	

Producer Price Index in Iran

Ordibehesht 1389

(1383 = 100)

The Producer Price Index (PPI) went up 1.5 percent in Ordibehesht 1389. The index level of 193.6 was 11.3 percent higher than in Ordibehesht 1388.

For the first two months of 1389, the Producer Price Index rose 10.8 percent, compared to the similar period in 1388.

The Producer Price Index has advanced 7.4 percent over the last twelve months.

In Ordibehesht, the agriculture, hunting and forestry group index went up 0.9 percent, which was mainly attributed to the rise in the indices for root vegetables, garden vegetables and farming of cattle, sheep and goats.

The advance in the index for Persian Gulf fish principally caused 4.6 percent increase in the group index for fishing.

As a result of rising in the indices for walnut, pasteurized milk, carbonated drink, spinning of fibers, carpets and rugs, paper and cardboard, PVC, animal vaccines, industrial adhesive, iron bloom, iron slab, billet, reservoir and central heating boilers and telecommunications cable, the manufacturing group index moved up 2.3 percent. In this group, the prices of oil cake, exported methanol, exported benzene, round bar, zink ingot, generator and copper cable decreased.

The 1.8 percent advance in the group index for hotels and restaurants was mostly due to the increase in the index for hotels.

The transport, storage and communications group index and the education group index rose 0.1 percent each.

The health and social work group index went up 3.2 percent, which was mainly attributed to the increase in the price of medical and dental practice activities.

The advance in the index for training of swimming and body building mostly caused 1.7 percent rise in the group index of other community, social and personal service activities.

Producer Price Index in Iran (1383=100)
