## **Export Price Index in Iran**

### **Mordad 1389**

**(1383 = 100)**

The Export Price Index (**XPI**) went up 0.1 percent in Mordad 1389\*. The index level of 196.9 was 7.4 percent higher than in Mordad 1388.

During the first five months of the current Iranian year, the XPI increased 12.2 percent compared to the similar period in 1388.

The XPI has risen 4.2 percent over the last twelve months.

The animal products group index increased 2.4 percent, which was attributed to the advance of the index for sheep assorted casing.

The vegetable products group index went up 0.1 percent.

As a result of rising in the index for palm oil, the index for animal or vegetable fats and oils group advanced 1.6 percent. In this group, the index for soya oil decreased.

The prepared foodstuffs, beverages and tobacco group index increased 0.3 percent.

During Mordad, the mineral products group index went up 2.0 percent which was mainly due to the increase in the indexes for propane, butane, zinc-oxide concentrate, paraffin and iron stone. In this group, the indexes for tar and cement declined.

The index for products of the chemical or allied industries group rose 1.2 percent. Increases in the indexes for ammonia and methanol were the major

---

\* The index is compiled by Rial prices and during the reported period compared to the previous month, the exchange rates of Dollar and Euro increased 0.5 percent and 3.8 percent, respectively.

reasons for this advance. Within the mentioned group, decreases in the indexes for paraxylene and molybdenum oxide were considerable.

The plastics and articles thereof, rubber and articles thereof group index fell 0.7 percent.

The skins, leather and articles thereof group index, the wood and articles of wood group index and the textiles and textile articles group index increased 0.5 percent, 0.1 percent and 0.2 percent, respectively.

The footwear group index and the optical, precision and medical instruments group index were unchanged.

The index for articles of stone group moved up 0.3 percent.

The 3.5 percent fall in the group index of base metals and articles of base metal was principally due to the decline in the index for hot coil iron. Within this group, increases in the indexes for cathode copper, aluminium ingot, steel profile and galvanized pipe were also noticeable.

The machinery and mechanical appliances, electrical equipment group index rose 0.4 percent.

The vehicles and associated transport equipment group index went down 1.9 percent, largely due to the decrease in the indexes for radiator for automobile and tractor.
