### **Export Price Index in Iran**

#### **Dey 1389**

#### (1383 = 100)

The Export Price Index (**XPI**) went up 1.0 percent in Dey 1389<sup>\*</sup> following a 2.1 percent rise in Azar 1389. The index level of 215.7 was 11.4 percent higher than in Dey 1388.

During the first ten months of the current Iranian year, the XPI increased 11.6 percent compared to the similar period in 1388.

The XPI has advanced 11.6 percent over the last twelve months.

The animal products group index and the vegetable products group index decreased 0.3 percent and 0.5 percent, respectively.

Rises in the indexes for soya oil, sunflower oil and palm oil mainly accounted for the advance in the group index of animal or vegetable fats and oils by 5.4 percent.

The prepared foodstuffs, beverages and tobacco group index fell 0.2 percent.

During Dey, the mineral products group index went up 0.5 percent.

The group index for products of the chemical or allied industries rose 6.1 percent mostly as a result of the increase in the indexes for ammonia, shampoo and molybdenum-oxide. Within the mentioned group, decline in the index for decorative paints was also considerable.

The plastics and articles thereof, rubber and articles thereof group index advanced 0.4 percent.

<sup>\*</sup> The index is compiled by Rial prices and during the reported period compared to the previous month, the exchange rate of Dollar increased 0.1 percent but the exchange rate of Euro decreased 0.7 percent.

The 10.5 percent increase in the group index of skins and leather and articles thereof was principally due to the advance in the index for processed sheep skin.

The wood and articles of wood group index and the footwear group index were unchanged.

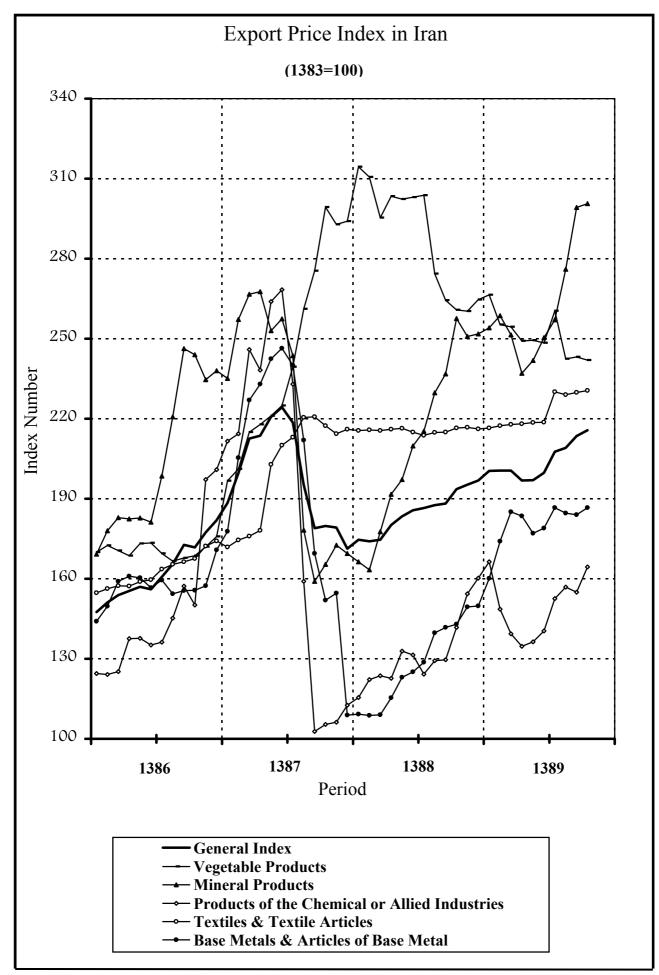

The group index of textiles and textile articles moved up 0.3 percent.

The articles of stone group index increased 0.2 percent.

The group index for base metals and articles of base metal rose 1.4 percent. Increases in the indexes for aluminium ingot, hot coil iron, ferro molybdenum and galvanized pipe were the major factors for this advance. In this group, the index for steel profile declined.

The machinery and mechanical appliances, electrical equipment group index decreased 0.1 percent.

The vehicles and associated transport equipment group index and the optical, precision and medical instruments group index had no change.
