Export Price Index in Iran

Bahman 1389

(1383 = 100)

The Export Price Index (**XPI**) went down 1.6 percent in Bahman 1389* following a 1.0 percent rise in Dey 1389. The index level of 212.3 was 8.7 percent higher than in Bahman 1388.

During the first eleven months of the current Iranian year, the XPI increased 11.3 percent compared to the similar period in 1388.

The XPI has advanced 11.6 percent over the last twelve months.

In Bahman, the animal products group index increased 4.4 percent, which was principally attributed to the rise of the index for sheep assorted casing.

The vegetable products group index and the animal or vegetable fats and oils group index decreased 0.5 percent and 0.3 percent, respectively.

The group index for prepared foodstuffs, beverages and tobacco moved up 0.3 percent.

During Bahman, the mineral products group index fell 8.3 percent mostly as a result of the decrease in the indexes for propane, butane and cement. Within the mentioned group, increase in the index for paraffin was also considerable.

Rises in the indexes for paraxylene and molybdenum-oxide mainly accounted for the advance in the group index of products of the chemical or allied industries by 2.7 percent. In this group, the index for ammonia declined.

The plastics and articles thereof, rubber and articles thereof group index went up 0.9 percent.

* The index is compiled by Rial prices and during the reported period compared to the previous month, the exchange rate of Dollar decreased 0.3 percent but the exchange rate of Euro increased 2.9 percent.

The 2.1 percent decline in the group index of skins and leather and articles thereof was principally due to the decrease in the index for processed sheep skin.

The group index for wood and articles of wood went down 1.2 percent.

The textiles and textile articles group index turned down 1.5 percent. Decrease in the index for machine-made carpet was the major factor for this decline.

The footwear group index and the optical, precision and medical instruments group index were unchanged.

The group index of articles of stone increased 0.5 percent.

The group index for base metals and articles of base metal rose 3.4 percent mostly due to the advance in the indexes for hot coil iron, aluminium ingot and galvanized pipe. In the mentioned group, decline in the index for ferromolybdenum was noticeable.

The machinery and mechanical appliances, electrical equipment group index decreased 0.6 percent.

The vehicles and associated transport equipment group index moved up 2.0 percent.
