Export Price Index in Iran

Tir 1391

(1383 = 100)

The Export Price Index (**XPI**) decreased 3.9 percent in Tir 1391* following a 0.2 percent rise in Khordad 1391. The index level of 249.4 was 9.7 percent higher than in Tir 1390.

During the first four months of the current Iranian year, the XPI increased 12.3 percent compared to the similar period in 1390.

The XPI has advanced 13.3 percent over the last twelve months.

In Tir, the animal products group index declined 0.6 percent.

As a result of decreasing in the index for saffron, the vegetable products group index fell 1.2 percent. In this group, the indexes for pistachio and almond went up.

The group index for animal or vegetable fats and oils was unchanged.

The prepared foodstuffs, beverages and tobacco group index fell 0.4 percent.

Decreases in the indexes of propane, butane and parafine wax mainly accounted for the decline in the mineral products group index by 8.9 percent. Within the mentioned group, the index for cement increased.

The group index for products of the chemical or allied industries decreased 4.4 percent. Decline in the index for paraxylene was the major factor for this diminution.

The plastics and articles thereof, rubber and articles thereof group index went down 2.0 percent, which was principally attributed to the decrease in the indexes for polyethylene and polyvinyl chloride.

* The index is computed on the Iranian Rial basis. In this month, the exchange rate of Dollar had no change while the exchange rate of Euro decreased 1.2 percent.

During Tir, the skins and leather and articles thereof group index and the wood and articles of wood group index remained unchanged.

The group index for textiles and textile articles moved up 0.4 percent.

The 1.2 percent fall in the group index of footwear was particularly due to the decline in the index for safety shoes.

The articles of stone group index advanced 0.8 percent.

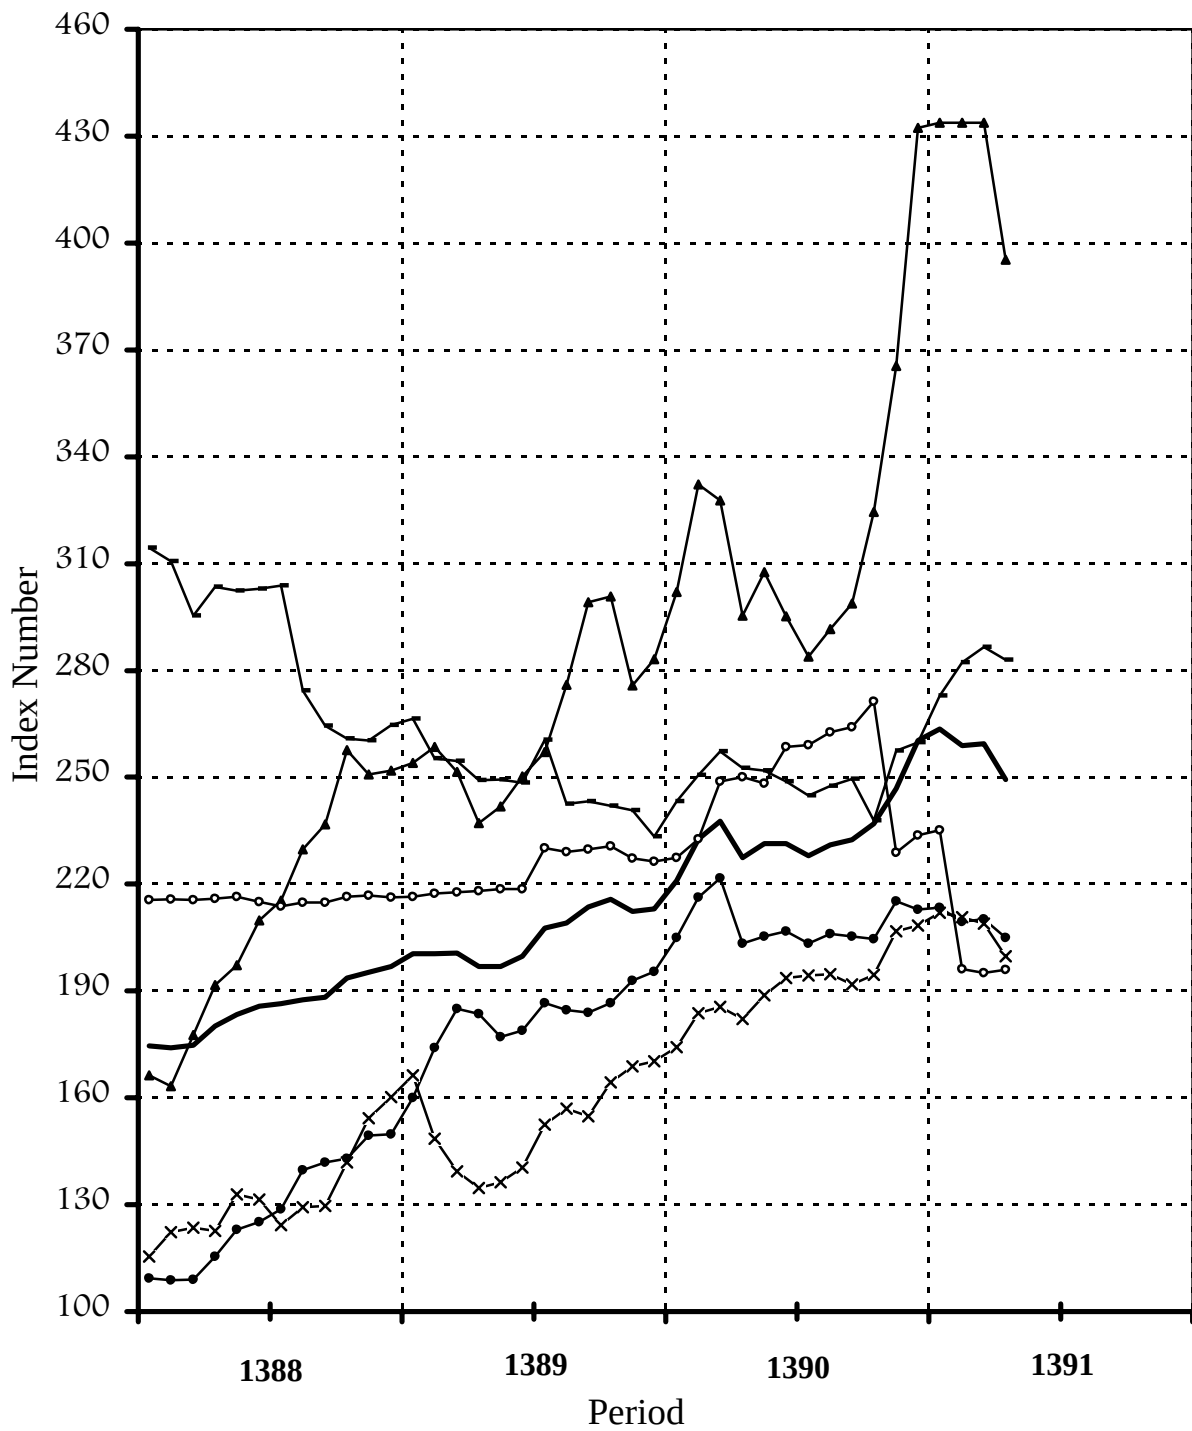

The base metals and articles of base metal group index declined 2.5 percent mostly due to the decreases in the indexes for hot coil iron, aluminium ingot and steel profile. In this group, rises in the indexes for galvanized pipe and cathode copper were also considerable.

The group index for machinery and mechanical appliances, electrical equipment went down 0.2 percent.

The vehicles and associated transport equipment group index rose 1.0 percent, which was mainly attributed to the advance of the index for tractor.

The optical, precision and medical instruments group index had no change.

Export Price Index in Iran (1383=100)
