Export Price Index in Iran

Khordad 1392

(1383 = 100)

The Export Price Index (**XPI**) went up 2.4 percent in Khordad 1392* following a 0.9 percent decline in Ordibehesht 1392. The index level of 695.2 was 167.9 percent higher than in Khordad 1391.

During the first three months of the current Iranian year, the XPI increased 163.4 percent compared to the similar period in 1391.

The XPI has advanced 126.6 percent over the last twelve months.

In Khordad, the animal products group index increased 1.8 percent mainly due to the advances in the indexes for frozen fish and sheep assorted casing.

The group index for vegetable products moved up 3.3 percent, which was principally attributed to the rises of the indexes for pistachio, saffron, raisin, date, cumin and liquorice extract powder.

During this month, the animal or vegetable fats and oils group index was unchanged.

The 2.3 percent increase in the prepared foodstuffs, beverages and tobacco group index was mostly due to the advances in the indexes for tomato paste, beverage, biscuit and wafer, non-cacao chocolate, ice cream, cake and macaroni.

The indexes for propane, butane, tar, paraffin wax, cement, bentonite powder and barite powder went up in Khordad and caused 2.4 percent increase in the mineral products group index.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 2.4 percent and 3.7 percent, respectively.

In this month, the products of the chemical or allied industries group index fell 2.8 percent. Decreases in the indexes for decorative paints and molybdenum-oxide were the major reasons for this diminution. In this group, increases in the indexes for paraxylene, detergent powder, methanol and soap were also considerable.

As a result of increasing in the indexes for alkyd resin, polyvinyl chloride and rubber pipe, the plastics and articles thereof, rubber and articles thereof group index advanced 4.2 percent.

The 4.9 percent rise in the skins and leather and articles thereof group index was particularly due to the increase in the index for processed sheep skin.

The group index for wood and articles of wood moved up 1.1 percent.

Rises in the indexes for hand-woven carpet, machine-made carpet, rug, gunny and tulle mostly accounted for the advance in the textiles and textile articles group index by 2.3 percent.

The group index for footwear remained unchanged over this month.

The articles of stone group index and the base metals and articles of base metal group index went up 0.7 percent and 0.9 percent, respectively.

The group index for machinery and mechanical appliances, electrical equipment advanced 0.1 percent.

The 34.1 percent rise in the vehicles and associated transport equipment group index was led by the increases in the indexes for tractor and car radiator.

The optical, precision and medical instruments group index had no change.
