Export Price Index in Iran

Azar1393

(1390 = 100)

The Export Price Index (**XPI**) increased 3.9 percent in Azar 1393* after recording a 0.4 percent decline in Aban 1393. The index level of 277.9 was 11.0 percent higher than in Azar 1392.

During the first nine months of the current Iranian year, the XPI declined 0.7 percent compared to the similar period in 1392.

The XPI has fallen 4.1 percent over the last twelve months.

In Azar, the animal products group index moved up 4.9 percent which was attributed to the advances of the indices for yogurt, frozen fish and shrimp.

The 3.0 percent increase in the vegetable products group index was mainly due to the rises in the indices for pistachio, saffron, almond, date and raisin.

The animal or vegetable fats and oils group index rose 4.9 percent.

As a result of increasing in the indices of tomato paste, biscuit and wafer, ice cream, cake, non-cacao chocolate and fruit juices, the prepared foodstuffs, beverages and tobacco group index went up 4.3 percent.

Advances in the indices for propane, cement, tar and paraffin wax caused 8.3 percent rise in the mineral products group index. Within the mentioned group, decreases in the indices for industrial oils, copper concentrate, butane and engine oils were also considerable.

The products of the chemical or allied industries group index went down 2.2 percent. Declines in the indices for methanol and ammonia were the main

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 4.0 percent and 2.4 percent, respectively.

factors for the mentioned decrease. In this group, the indices for styrene, urea fertilizer, paraxylene, detergent powders and liquids, caustic soda and dodecyl benzene increased.

The group index for plastics and articles thereof, rubber and articles thereof turned up 2.5 percent mostly as a result of increases in the indices for low density polyethylene, plastic hoses, melamine dishes and high density polyethylene. In the mentioned group, the index for polyethylene terephthalate declined.

Decrease in the index for processed sheep skin led to the fall in the skins and leather and articles thereof group index by 8.9 percent.

In Azar, the group index for wood and articles of wood rose 4.0 percent.

The 4.0 percent advance in the textiles and textile articles group index was principally attributed to the rise in the indices for hand woven carpet, machine made carpet and propylene gunny.

Rising in the index for "sandal with uppers of rubber or plastics" caused 4.1 percent advance in the footwear group index.

The articles of stone group index advanced 2.7 percent, largely due to the increase in the index for "tile and ceramic". In this group, the index for sanitary porcelain went down.

The indices for cathode copper, aluminium ingot, hot coil iron, zinc ingot, galvanized pipe and steel profile turned up in Azar, reflecting 5.4 percent rise in the base metals and articles of base metal group index.

The group index for machinery and mechanical appliances, electrical equipment group index advanced 0.9 percent over this month.

The vehicles and associated transport equipment group index rose 11.4 percent. Increase in the index for tractor was the major reason for the mentioned advance.
