Export Price Index in Iran

Dey 1393

(1390 = 100)

The Export Price Index (**XPI**) decreased 1.4 percent in Dey 1393* following a 3.9 percent advance the pervious month. The index level of 274.0 was 6.0 percent higher than in Dey 1392.

During the first ten months of the current Iranian year, the XPI edged down 0.1 percent compared to the similar period in 1392.

The XPI has fallen 3.0 percent over the past twelve months.

In Dey, the animal products group index moved up 3.5 percent, which was attributed to the advances of the prices for yogurt, frozen fish and shrimp.

The 3.2 percent increase in the vegetable products group index was mainly due to the rises in the prices for pistachio, saffron, raisin and date.

The animal or vegetable fats and oils group index rose 8.1 percent.

As a result of increasing in the prices for biscuit and wafer, ice cream, cake, non-cacao chocolate, fruit juices and snack-chips, the prepared foodstuffs, beverages and tobacco group index went up 2.5 percent. In this group, the index for tomato paste moved down.

Decreases in the prices for propane, industrial oils, bitumen, paraffin wax and engine oils caused 6.0 percent drop in the mineral products group index, while the advances in the prices for butane, cement and copper concentrate were considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 3.9 percent and 0.6 percent, respectively.

The products of the chemical or allied industries group index went down 2.9 percent. Lower price for toluene was the main factor for the mentioned decrease. In this group, the prices for urea fertilizer, methanol, ammonia, dodecyl benzene, "detergent powders and liquids" and caustic soda increased.

The group index for plastics and articles thereof, rubber and articles thereof turned up 1.9 percent mostly as a result of increasing in the prices for low density polyethylene, plastic hoses, melamine dishes and polyethylene terephthalate. In the mentioned group, the prices for high density polyethylene and poly vinyl chloride declined.

Advance in the price for processed sheep skin led to the rise in the skins and leather and articles thereof group index by 4.0 percent.

In Dey, the group index for wood and articles of wood turned up 4.0 percent.

The 3.9 percent advance in the textiles and textile articles group index was principally driven by higher prices for hand woven carpet, machine made carpet and propylene gunny.

Rising in the price for "sandal with uppers of rubber or plastics" caused 4.2 percent advance in the footwear group index.

The articles of stone group index went up 2.4 percent, largely due to the increases in the prices for "tile and ceramic" and float glass .

The group index for base metals and articles of base metal declined 0.2 percent.

The prices for cable and air cooler rose in Dey, reflecting 4.5 percent advance in the machinery and mechanical appliances, electrical equipment group index.

The group index for vehicles and associated transport equipment decreased 5.9 percent over this month.
