Export Price Index in Iran

Ordibehesht 1394

(1390 = 100)

The Export Price Index (**XPI**) increased 1.6 percent in Ordibehesht 1394* following a 3.4 percent decline in Farvardin 1394. The index level of 247.7 was 13.0 percent lower than in Ordibehesht 1393.

During the first two months of the current Iranian year, the XPI decreased 12.7 percent compared to the similar period in 1393.

The XPI has fallen 1.4 percent over the past twelve months.

In Ordibehesht, the animal products group index went down 0.4 percent.

The group index for vegetable products moved up 2.5 percent. Increases in the prices for saffron, pistachio and raisin were the major reasons for this advance.

The animal or vegetable fats and oils group index rose 1.6 percent.

The prepared foodstuffs, beverages and tobacco group index moved down 1.2 percent, which was mainly due to the decrease in the price for tomato paste.

The mineral products group index fell 1.2 percent. Lower prices for cement and bitumen were the main factors for the mentioned decline. In this group, the prices for propane, butane, paraffin wax and industrial oils increased.

During Ordibehesht, increases in the prices for methanol, paraxylene, caustic soda and dodecyl benzene caused 2.6 percent advance in the products of the chemical or allied industries group index, while the declines in the prices for ammonia and urea fertilizer were also considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 0.4 percent and 3.0 percent, respectively.

As a result of increasing in the prices for low density polyethylene, high density polyethylene, polyethylene terephthalate and polyvinyl chloride, the group index for plastics and articles thereof, rubber and articles thereof rose 11.1 percent.

The 36.4 percent fall in the skins and leather and articles thereof group index was particularly due to the drop in the price for processed sheep skin.

The wood and articles of wood group index declined 2.3 percent over this month.

The price for gunny increased in this month, reflecting 1.0 percent rise in the textiles and textile articles group index.

In Ordibehesht, the group index for footwear moved up 0.1 percent.

The articles of stone group index went down 1.1 percent, largely due to the decrease in the price for "tile and ceramic".

The group index for base metals and articles of base metal rose 1.8 percent, which was principally attributed to the advances in the prices for hot coil iron and zinc ingot. In the mentioned group, the index for aluminium ingot declined.

The group index for machinery and mechanical appliances, electrical equipment declined 0.2 percent.

During the mentioned month, the vehicles and associated transport equipment group index advanced 2.4 percent.
