Export Price Index in Iran

Khordad 1394

(1390 = 100)

The Export Price Index (**XPI**) decreased 4.8 percent in Khordad 1394* following a 1.6 percent rise in Ordibehesht 1394. The index level of 235.9 was 17.7 percent lower than in Khordad 1393.

During the first three months of the current Iranian year, the XPI declined 14.4 percent compared to the similar period in 1393.

The XPI has fallen 2.3 percent over the past twelve months.

In Khordad, the animal products group index went down 0.8 percent.

The group index for vegetable products moved up 3.7 percent. Increases in the prices for saffron, pistachio, cumin and raisin were the major reasons for this advance.

The animal or vegetable fats and oils group index and the prepared foodstuffs, beverages and tobacco group index decreased 0.5 percent and 0.4 percent, respectively.

The mineral products group index fell 19.3 percent. Lower prices for butane, propane and paraffin wax were the main factors for the mentioned decline. In this group, the prices for bitumen and cement increased.

During Khordad, increases in the prices for styrene, paraxylene, urea fertilizer and ammonia caused 2.1 percent advance in the products of the chemical or allied industries group index, while the declines in the prices for methanol, caustic soda and "detergent powders and liquids" were also considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro decreased 0.4 percent and 1.6 percent, respectively.

As a result of increasing in the prices for low density polyethylene, polyethylene terephthalate, polyvinyl chloride and high density polyethylene, the group index for plastics and articles thereof, rubber and articles thereof rose 2.8 percent.

The 11.4 percent increase in the skins and leather and articles thereof group index was particularly due to the rise in the price for processed sheep skin.

The wood and articles of wood group index declined 3.3 percent over this month.

In Khordad, the group index for textiles and textile articles and the group index for footwear moved down 0.5 percent and 0.9 percent, respectively.

The articles of stone group index went up 1.6 percent, largely due to the increase in the price for float glass. In the mentioned group, the prices for sheet glass and "tile and ceramic" fell.

The group index for base metals and articles of base metal decreased 0.5 percent.

The machinery and mechanical appliances, electrical equipment group index declined 1.0 percent, which was principally attributed to the drop in the price for cable. In this month, the price for "gas water heater" rose.

The price for motorcycle went down in this month and caused 3.1 percent fall in the vehicles and associated transport equipment group index.
