Export Price Index in Iran

Tir 1394

(1390 = 100)

The Export Price Index (**XPI**) decreased 3.5 percent in Tir 1394* following a 4.8 percent decline in Khordad 1394. The index level of 227.6 was 15.8 percent lower than in Tir 1393.

During the first four months of the current Iranian year, the XPI declined 14.7 percent compared to the similar period in 1393.

The XPI has fallen 3.4 percent over the past twelve months.

In Tir, the animal products group index and the vegetable products group index went down 0.2 percent and 0.4 percent, respectively.

The group index for animal or vegetable fats and oils moved down 1.3 percent over this month.

The group index for prepared foodstuffs, beverages and tobacco decreased 0.9 percent.

The mineral products group index fell 9.2 percent. Lower prices for propane, butane, industrial oils, cement, bitumen and copper concentrate were the main factors for the mentioned decline.

During this month, the products of the chemical or allied industries group index remained unchanged.

As a result of decreasing in the prices for low density polyethylene, high density polyethylene, polyethylene terephthalate, polyvinyl chloride and

* The index is computed on the Iranian Rial basis. In this month, the exchange rate of Dollar decreased 1.3 percent, while the exchange rate of Euro increased 0.1 percent.

plastic hoses, the group index for plastics and articles thereof, rubber and articles thereof went down 3.0 percent.

The skins and leather and articles thereof group index and the wood and articles of wood group index rose 2.2 percent and 1.0 percent, respectively.

Decreases in the prices for hand-woven carpet and propylene gunny caused 1.0 percent decline in the textiles and textile articles group index, while the advance in the price for tulle was also considerable.

The group index for footwear moved down 1.2 percent over this month.

The 4.1 percent decline in the articles of stone group index was mostly due to the drops in the prices for "tile and ceramic" and float glass.

The group index for base metals and articles of base metal went down 4.2 percent, largely due to the declines in the prices for aluminium ingot, zinc ingot, cathode copper and lead ingot.

The machinery and mechanical appliances, electrical equipment group index fell 3.9 percent, which was particularly attributed to the declines in the prices for cable, air cooler and "gas water heater".

During the mentioned month, the group index for vehicles and associated transport equipment went down 0.2 percent.
