Export Price Index in Iran

Shahrivar 1394

(1390 = 100)

The Export Price Index (XPI) decreased 1.4 percent in Shahrivar 1394* following a 1.7 percent rise in Mordad 1394. The index level of 228.3 was 15.8 percent lower than in Shahrivar 1393.

During the first six months of the current Iranian year, the XPI declined 14.9 percent compared to the similar period in 1393.

The XPI has fallen 6.1 percent over the past twelve months.

In Shahrivar, the animal products group index moved up 2.8 percent, which was attributed to the increases in the prices for yogurt, sheep assorted casing and frozen fish.

The 1.4 percent advance in the vegetable products group index was mainly due to the rises in the prices for pistachio, saffron, raisin and "liquorice extract powder". In the mentioned group, the prices for almond and date fell.

The group index for animal or vegetable fats and oils went up 2.4 percent over this month.

As a result of increasing in the prices for "biscuit and wafer", ice cream, cake and non-cacao chocolate, the prepared foodstuffs, beverages and tobacco group index advanced 2.3 percent.

The mineral products group index increased 1.8 percent. Higher prices for propane, butane, cement and copper concentrate were the main reasons for the

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 2.6 percent and 5.4 percent, respectively.

mentioned rise. In this group, the prices for industrial oils and bitumen went down.

During this month, decreases in the prices for methanol, paraxylene, styrene, urea fertilizer and molybdenum-oxide caused 9.2 percent drop in the products of the chemical or allied industries group index, while the increases in the prices for ammonia and "detergent powders and liquids" were also considerable.

The group index for plastics and articles thereof, rubber and articles thereof fell 4.9 percent, mostly as a result of decreasing in the prices for low density polyethylene and polyethylene terephthalate. In this month, the prices for high density polyethylene, plastic hoses and melamine dishes moved up.

The skins and leather and articles thereof group index decreased 2.1 percent.

The wood and articles of wood group index turned up 4.0 percent.

Increases in the prices for hand-woven carpet and machine-made carpet caused 1.9 percent rise in the textiles and textile articles group index.

The price for "sandal with uppers of rubber or plastics" increased over this month, reflecting 3.1 percent advance in the footwear group index.

The 2.4 percent increase in the articles of stone group index was principally due to the rise in the price for "tile and ceramic".

The base metals and articles of base metal group index and the machinery and mechanical appliances, electrical equipment group index went up 0.6 percent and 0.3 percent, respectively.

The vehicles and associated transport equipment group index rose 3.4 percent. Increases in the prices for tractor and car radiator were the major factors for the mentioned advance.
