Export Price Index in Iran

Dey 1394

(1390 = 100)

The Export Price Index (**XPI**) decreased 0.6 percent in Dey 1394* following a 1.4 percent rise in Azar 1394. The index level of 224.5 was 18.1 percent lower than in Dey 1393.

During the first ten months of the current Iranian year, the XPI declined 15.8 percent compared to the similar period in 1393.

The XPI has fallen 13.7 percent over the past twelve months.

In Dey, the animal products group index moved up 0.2 percent.

The vegetable products group index rose 5.7 percent, which was attributed to the increases in the prices for saffron, pistachio and almond.

The group index for animal or vegetable fats and oils and the group index for prepared foodstuffs, beverages and tobacco went up 3.3 percent and 0.8 percent, respectively.

As a result of decreasing in the prices for cement and propane, the mineral products group index fell 5.5 percent. In this group, the prices for butane, industrial oils, copper concentrate and bitumen advanced.

The products of the chemical or allied industries group index increased 0.6 percent over this month.

The group index for plastics and articles thereof, rubber and articles thereof declined 2.9 percent. Lower prices for low density polyethylene and high density polyethylene were the major reasons for this decrease.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 0.8 percent and 2.0 percent, respectively.

The skins and leather and articles thereof group index fell 4.1 percent, which was principally due to the decline in the price for processed sheep skin.

During the mentioned month, the group index for wood and articles of wood went down 2.3 percent.

The price for hand-woven carpet increased, reflecting 1.5 percent advance in the textiles and textile articles group index.

The footwear group index and the articles of stone group index moved up 1.2 percent and 0.9 percent, respectively.

The group index for base metals and articles of base metal declined 2.4 percent, mostly as a result of decreasing in the prices for hot coil iron and zinc ingot. In contrast, the price for cathode copper rose.

Increases in the prices for cable and air cooler caused 1.7 percent advance in the machinery and mechanical appliances, electrical equipment group index.

In Dey, the group index for vehicles and associated transport equipment went up 16.7 percent.
