Export Price Index in Iran

Ordibehesht 1395

(1390 = 100)

The Export Price Index (**XPI**) decreased 1.2 percent in Ordibehesht 1395* following a 2.2 percent rise in Farvardin 1395. The index level of 208.9 was 15.7 percent lower than that in Ordibehesht 1394.

During the first two months of the current Iranian year, the XPI declined 14.5 percent compared to the similar period in 1394.

The XPI has fallen 16.3 percent over the past twelve months.

In Ordibehesht, the animal products group index went down 4.3 percent.

The 1.1 percent decrease in the vegetable products group index was mainly due to the decline in the price for pistachio. In this group, the price for saffron increased.

The group index for animal or vegetable fats and oils turned up 0.3 percent.

The prepared foodstuffs, beverages and tobacco group index was unchanged over this month.

During the mentioned month, the group index for mineral products fell 3.0 percent. Decreases in the prices for propane, butane, paraffin wax, and industrial oils were the major reasons for this decline, while the price for cement moved up.

As a result of rising in the prices for styrene, paraxylene, molybdenum-oxide, and ammonia, the products of the chemical or allied industries group index

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro decreased 0.7 percent and 0.1 percent, respectively.

increased 2.0 percent. In this group, the declines in the prices for urea fertilizer and methanol were also considerable.

The group index for plastics and articles thereof, rubber and articles thereof went down 4.1 percent, particularly due to the falls in the prices for plastic hoses and motorcycle tyres. In contrast, the prices for low density polyethylene and high density polyethylene advanced.

In Ordibehesht, the skins and leather and articles thereof group index and the wood and articles of wood group index fell 0.6 percent and 0.8 percent, respectively.

Decrease in the price for hand-woven carpet caused 1.5 percent decline in the group index for textiles and textile articles.

During this month, the group index for footwear reduced 2.3 percent.

The articles of stone group index declined 0.4 percent.

The group index for base metals and articles of base metal rose 1.6 percent, which was attributed to the advances in the prices for steel profile, ferro-molybdenum, and aluminium ingot.

The machinery and mechanical appliances, electrical equipment group index and the vehicles and associated transport equipment group index turned down 0.6 percent and 0.7 percent, respectively.

Export Price Index in Iran (1390=100)
