Export Price Index in Iran

Tir 1395

(1390 = 100)

The Export Price Index (**XPI**) increased 0.6 percent in Tir 1395* following a 0.4 percent rise in Khordad 1395. The index level of 211.0 was 7.3 percent lower than that in Tir 1394.

During the first four months of the current Iranian year, the XPI declined 11.9 percent compared to the similar period in 1394.

The XPI has fallen 15.2 percent over the past twelve months.

In Tir, the animal products group index and the vegetable products group index went up 0.4 percent and 0.7 percent, respectively.

The group index for animal or vegetable fats and oils moved down 1.3 percent over this month.

The group index for prepared foodstuffs, beverages and tobacco increased 0.9 percent.

The mineral products group index rose 4.0 percent. Higher prices for propane, butane, industrial oils, copper concentrate, and bitumen were the main reasons for the mentioned advance. In this group, the price for cement went down.

During this month, decreases in the prices for urea fertilizer, methanol, and styrene caused 2.7 percent drop in the products of the chemical or allied industries group index. In the mentioned group, the increases in the prices for ammonia and paraxylene were also considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rate of Dollar increased 0.9 percent but the exchange rate of Euro remained unchanged.

The plastics and articles thereof, rubber and articles thereof group index and the skins and leather and articles thereof group index fell 0.8 percent and 1.7 percent, respectively.

The group index for wood and articles of wood advanced 4.4 percent, while the group index for textiles and textile articles decreased 0.1 percent.

The footwear group index rose 1.1 percent over the mentioned month.

The articles of stone group index reduced 0.1 percent.

The group index for base metals and articles of base metal increased 2.5 percent, mainly due to the rises in the prices for zinc ingot, aluminium ingot, lead ingot, cathode copper, and hot coil iron. In this group, the price for ferromolybdenum declined.

The machinery and mechanical appliances, electrical equipment group index turned up 1.3 percent, which was particularly attributed to the rise in the price for air cooler.

As a result of decreasing in the prices for tractor and motorcycle, the vehicles and associated transport equipment group index fell 6.8 percent.
