Export Price Index in Iran

Shahrivar 1395

(1390 = 100)

The Export Price Index (XPI) decreased 0.3 percent in Shahrivar 1395* following a 2.0 percent rise in Mordad 1395. The index level of 214.5 was 6.0 percent lower than that in Shahrivar 1394.

During the first six months of the current Iranian year, the XPI declined 10.2 percent compared to the similar period in 1394.

The XPI has fallen 13.9 percent over the past twelve months.

In Shahrivar, the animal products group index went up 1.3 percent.

The 2.1 percent decrease in the vegetable products group index was mainly due to the decline in the prices for saffron, raisin and pistachio. In this group, the price for almond increased.

The animal or vegetable fats and oils group index and the prepared foodstuffs, beverages and tobacco group index advanced 1.3 percent and 0.1 percent respectively, over this month.

As a result of decreasing in the prices for cement and butane, the mineral products group index reduced 1.4 percent. The prices for propane and industrial oil moved up slightly in Shahrivar.

During the mentioned month, the group index for products of the chemical or allied industries fell 1.1 percent. Lower prices for ammonia, urea fertilizer and dodecyl benzene were the major factors for this reduction, while the increases in the prices for methanol, paraxylene and styrene were also considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rates of Dollar and Euro increased 0.6 percent and 1.6 percent, respectively.

The plastics and articles thereof, rubber and articles thereof group index and the skins and leather and articles thereof group index turned up 0.9 percent and 0.6 percent, respectively.

The group index for wood and articles of wood fell 8.0 percent.

In Shahrivar, the textiles and textile articles group index, the footwear group index, and the articles of stone group index rose 0.2 percent, 0.5 percent and 0.3 percent, respectively.

The base metals and articles of base metal group index increased 2.5 percent. Higher price for hot coil iron was the major reason for this advance.

In the mentioned month, the machinery and mechanical appliances, electrical equipment group index moved up 0.8 percent.

The vehicles and associated transport equipment group index turned up 3.4 percent which was mainly attributed to the rise in the price for tractor.
