Key Economic Indicators

Population & Human Resource (1378)								
Population	62.8 Million							
Urban	39.8 Million							
Rural	23.0 Million							
Population Growth	1.6 Percent							
Population Density	38 Person SQ Km							
Active Population	17.9 Million							
Employed Population	15.2 Million							
Literacy Ratio:								
6 years And Over	83.0 Percent							
6-29 years	96.3 Percent							

Real Sector (1378)	
GDP Growth	2.4 Percent
Non-oil GDP Growth	3.2 Percent
GDP Growth (SFYDP)	3.8 Percent
GDP (current prices)	416,697 Billion Rials
Gross Fixed Capital Formation	92,619 Billion Rials
Private Consumption Expenditures	265,498 Billion Rials
Public Consumption Expenditures	56,296 Billion Rials
Gross National Savings /GDP	22.8 Percent
Per Capita Income (Current Prices)	5,534 Thousand Rials
Inflation Rate (annual average)	20.1 Percent
Inflation Rate (SFYDP average)	25.5 Percent

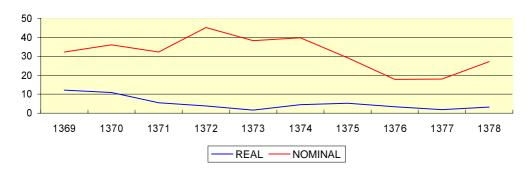

Govt. Fiscal Sector (1st Qtr. 1379)								
Revenues	20,700 Billion Rials							
Expenditures	21,853 Billion Rials							
Expenditures/GDP (1378)	22.8 Percent							
Budget Deficit/GDP (1378)	1.1 Percent							

External Sector (1st Qtr. 1379)	
Current Account Balance	2,499 Million Dollars
Trade Balance	2,680 Million Dollars
Exports	6,001 Million Dollars
Imports (FOB)	3,321 Million Dollars
Total Foreign Debts	9,585 Million Dollars
Exchange Rate (IRR / US\$):	
Oil-Notional	1,752.50
Certificate of Deposit	8,181.40

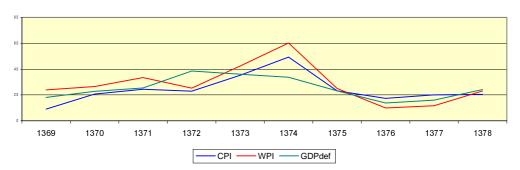

Monetary Sector (1st Qtr. 1379)									
Liquidity Growth (M2)	3.0 Percent								
Money Growth (M1)	2.1 Percent								
Quasi- Money Growth (QM)	3.8 Percent								
Growth Of Non-public Sector Deposits	5.1 Percent								

Tehran Stock Exchange (1st Qtr. 1379)	
Share Price Index	2,424.37 Units
Value of Transactions	979.9 Billion Rials
Number Of Transacted Shares	241,303 Thousand Shares

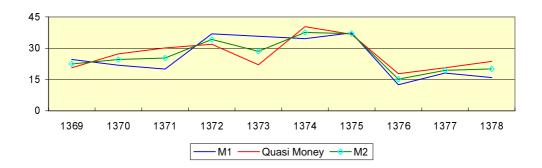

GDP Growth percent change

APPENDIX I

Key Features of Trade and Exchange System

The currency of the Islamic Republic of Iran is the Iranian Rial, and the exchange system is based on a dual xchange rate structure.

which is allocated to imports of essential goods and services, debt services, and imports related to large national projects.

- oil exports receipts and imports of goods and services and other transactions which are not carried out at oil-notional rate. All non-oil exporters are granted the right to deposit their foreign exchange proceeds with banks and receive certificate of deposits (CD). The CDs could be traded in Tehran Stock Exchange (TSE), sold directly to agent banks within three months of issuance of CDs or entitled to 100 percent importation from a positive list of 77 broad categories of goods. The non-oil export rate is the rate of certificate of deposits being traded in TSE.

Since the beginning of the 3rd FYDP (2000-2004), the export rate at Rls.3000 per U.S.\$ has been eliminated. Exchange control authority is vested in Bank Markazi Jomhouri Islami Iran. All foreign exchange transactions ust take place through the banking system.

Imports and exports are governed by regulations issued periodically by the Ministry of Commerce after approval

hile importation

y Islamic Sharia, or respective laws.

All imports are subject to import advance payments. Import advance payments vary from zero to sixty percent, epending on the type of goods, and creditworthiness of the client. Most imports are subject to duties including ommercial benefit tax. The commercial benefit tax rates are specified in the Export-Import Regulations by the uthorities each year.

Export of all products must be undertaken in accordance with the relevant regulations. Non-oil exporters could ither deposit their export proceeds with the banking system and receive a certificate of deposits (CD) or sell it irectly to agent banks within three months. Since February 1998, %100 of the non-oil export proceeds that are urrendered to the banking system could be used by the exporter to import certain goods listed for this purpose . xporters may choose to import themselves or trade the right to import at the negotiated price in TSE.

Persons needing medical treatment abroad may obtain foreign exchange at the CD rate upto the amount specified y High Council of the Ministry of Health. In case the allocated amount does not cover the expenses, the balance ould be allocated at negotiated rate. Foreign exchange allowances are provided for students holding fellowships at il-notional rate by the relevant authorities granting fellowships. For other students studying abroad foreign exchange ill be allocated at CD rate.

Iranian nationals traveling abroad may purchase upto 1000 US dollars at CD rate for first travel. However, for econd and third travels in the same year, travelers may purchase 1000 US dollars at negotiated rate. Every companying person (above 12 years of age) in group passports, is eligible to purchase up to maximum of U.S.\$ 500 er person, at the CD rate, and the same amount at negotiated rate for successive travels in the same year.

Iranian nationals and foreigners are allowed to hold interest bearing foreign exchange deposits with authorized omestic banks. Two types of foreign exchange deposits

oreign exchange deposits bear interest at LIBOR plus one percentage point.

There is no limit on the amount of foreign exchange that travelers may bring into the country. However, for the urpose of repatriation, the amount should be declared at the time of entry. Iranian travelers leaving the country must ay an exit fee of Rls. 70,000.

Foreign investment in Iran is allowed. The right for repatriation of principal and dividends is guaranteed if the nvestment is made under the 1955 Law for the Attraction and Protection of Foreign Investment .As for portfolio nvestment non-residents may invest in instruments traded on the Tehran Stock Exchange.

APPENDIX II

Summary of the Monetary and Foreign Exchange Policies During 2000/01

A. Monetary Policies

The banking system constitutes the core of the financial sector in Iran and plays a critical role in transmitting monetary policy impulses to the entire economic system. Each year after the approval of

monetary and credit policy to Money and Credit Council for approval. Thereafter, certain core elements of monetary and credit policy need to be approved by the Council of Ministers. This procedure is followed in accordance with article19 of Interest-Free Banking Act of 1983, which stipulates that short-term credit policies need to be approved by government and long-term credit policies have to be incorporated within the Five Year Development Plan documents and approved by the parliament.

According to section (b) of Note 3 of Budget Law for 2000/01 the Central Bank is obliged to design and implement monetary and credit policy on the basis of the mobilized amount of current and investment deposits after the observance of banks legal obligations in a way that the economic growth and inflation targets of the 3rd FYDP could be realized. The main objective of monetary policy is price stability as set out in the 3rd FYDP. Meanwhile, the provision of reasonable liquidity, preference for private sector, orderly development of financial markets and ensuring financial stability are among the targets of the stance of monetary policy for the current year.

On the other hand, on the basis of section (c) of the same note, the maximum increase in the

of banks in 1379 was set at RIs. 5400 billion, while banks have to observe liquidity target and other obligations as set out in the 3rd FYDP act. The share of public and non-public sectors from the increase of facilities was set at 30 and 70 percent of total increase respectively. The distribution of banks scheduled facilities is as follows:

The approved monetary policy for the current year has set no ceiling for the facilities extended by banks to non-public sector. However, banks are obliged to observe the sectoral shares of the increase in the balance of facilities to non-public sector, except for 20 percent of the increase in facilities which

CHANGE IN THE BALANCE OF SCHEDULED FACILITIES OF THE BANKING SYSTEM (Billion rials)							
Facilities extend to:	Publ	ic	Non-Public				
Social and cultural project	59		230				
Employment promoting projects	2,36	8	0				
Market regulation and trade service projects	88		0				
Productive and infrastructure projects	1,26	5	1,390				
Total	0	1,620					
Economic Sector		S	hare Percent				
Agriculture	25.0						
Manufacturing and Mining		33.5					
Construction and Housing	29.0						
Construction		8.0					
Housing	21.0						
Exports	8.0						
Domestic trade, services and miscellaneous	4.5						
Total			100.0				

would be free from sectoral allocations. Therefore, the sectoral shares allocated for the facilities extended by banks to non-public sector will apply only to 80 percent of the increase in facilities. The sectoral share of facilities by banks during 2000/01 as approved by the Money and Credit Council are as follows:

In section (a) of note 48 of Budget Act for 2000/01 the government is allowed to issue up to Rls. 2000

with the authority of acting as agent for sale, distribution, payment of profit and the repayment of the principal of participation papers. Central Bank can delegate its agency role to other banks. Purchase of these papers by banks for portfolio purposes must be authorized by the CBI. The provisional profit of government participation papers is fixed at 19 percent per annum tax free which is payable on quarterly basis.

In 1379 the rates of return on various term investment deposits remained unchanged. However, to improve competitiveness in the money market, Money and Credit Council approved that the banks are allowed to determine the lending rates within the range applicable for different sectors.

B. Foreign Exchange Policies and Regulations

One of the major developments in the foreign exchange system of Iran during the year 2000/01 was the elimination of export rate (Rials 3000 per U.S. \$). Hence, the exchange system is principally based on oil-national rate, which is practically applied to budget specified transactions, and non-oil export rate which is used for other purposes. As of the beginning of 1379 the following policies have been implemented:

- 1- Non-oil exporters are entitled to receive certificate of deposits after the surrender of forex to their agent bank. Hence, the forex certificate of deposit was substituted for import certificate. These CDs can be used to open letter of credit for import purposes, to be sold either through TSE to other importers or directly to agent banks within three months of the issuance of CDs.
- 2- The Manufacturing units are allowed to import raw materials, spare parts and other required equipment against export of their own products, and settle their foreign exchange obligations through this mechanism.
- 3- The minimum advance deposit payments for opening letters of credit for import purposes for non-public sector are as follows:
 - Raw materials of pharmaceutical, medical equipment and inputs for animal husbandry and poultry at 20 percent of the value of import.
 - Certain essential goods, stationary, CKD of buses and trucks, imports by National Steel Corporation, and fodders at 40 percent of the value of import.
 - Other items at 60 percent
 - For importation by public institutions and ministries under the general budget 100 percent advance deposit payment is required.
- 4- The positive list of authorized imports at CD rate was extended from 46 broad categories of imports to 77 categories.
- 5- through baking system are exempted from pledging collaterals or advance payments.
- 6- According to 2000/01 Budget Law, the following measures were put into effect:
 - The order registration fee was set at Rls. 275 per U.S. Dollar or its equivalent for other currencies; While buy-back and foreign investment project s, and cultural activities were exempted from order registration fee.
 - In order to promote non-oil exports, the government is authorized to rebate the equivalent amount of the consumption tax on goods purchased by foreign travelers at foreign exchange.
 - The non-oil exports are exempted from any duties.
 - In order to promote competitiveness in domestic market, holding other conditions, import of automobiles is permitted in 2000/01.
 - Export of handicrafts, except carpet, is exempted foreign exchange surrender requirements.

APPENDIX III

Third Five Year Development plan 1379-83 (2000-2004)

The Third Five Year Development Plan is formulated with a view to various aspect s of the existing realities of the country, the challenges that the economy faces and the emphasis on having a comprehensive and balanced plan.

The 3rd FYDP is a package of articles, policies, and guidelines covering 26 sectoral and intrasectoral areas and provide a comprehensive framework for resolving structural impediments and economic difficulties during the plan period.

The core elements of the general policy framework of the plan are as follows:

- human resource management and structure
- 2- The financial position of all state enterprises will be assessed with the aim of either liquidating, privatizing, or restructuring them.
- 3- An effective social safety net will be put in place to replace the current generalized consumption

subsidies, with the aim of supporting specific targeted groups.

4of the Ministry of Economic Affairs and Finance with the objective of raising the efficiency of the tax
system and eliminating the existing organizational bottlenecks.

the sustainability and preservation of national wealth.

6- The ne

5-

- 1378 approved figures as benchmark. Hence in the final year of the plan the net increase of scheduled facility will not exceed 50 percent of the app
- activities in the from of preferential lending rates and loan repayment guarantees will become
- 7- The amount and the term structure of official external debt will be regulated so that total external debt will not exceed 2.5 billion U.S.\$ and debt service ratio will not exceed 30 percent of government foreign exchange receipts at the final year of plan period.
- 8- Government will issue 5,000 billion Rls. Of specific participation papers for recapitalization of banks. The proceeds from the sale of these papers will be used for strengthening financial position and government capital investment of undercapitalized banks.
- 9- The Central Bank will prepare the condition for the operation of private banks and private non bank financial institutions.
