Export Price Index in Iran

Azar 1389

(1383 = 100)

The Export Price Index (**XPI**) went up 2.1 percent in Azar 1389* following a 0.7 percent rise in Aban 1389. The index level of 213.5 was 13.4 percent higher than in Azar 1388.

During the first nine months of the current Iranian year, the XPI increased 11.6 percent compared to the similar period in 1388.

The XPI has advanced 11.3 percent over the last twelve months.

The animal products group index and the vegetable products group index increased 0.7 percent and 0.3 percent, respectively.

Rises in the indexes for palm oil, soya oil and sunflower oil mainly accounted for the advance in the group index of animal or vegetable fats and oils by 3.6 percent.

The 1.3 percent increase in the group index of prepared foodstuffs, beverages and tobacco was principally due to the increase in the indexes for caviar and fruit juice. In this group, the index for tomato puree declined.

The mineral products group index rose 8.4 percent mostly as a result of the advance in the indexes for propane, butane, iron stone and tar. Within the mentioned group, decrease in the index for paraffin was also considerable.

The group index for products of the chemical or allied industries turned down 1.3 percent. Declines in the indexes for ammonia and molybdenum-oxide were the major factors for this decrease.

* The index is compiled by Rial prices and during the reported period compared to the previous month, the exchange rates of Dollar and Euro decreased 0.2 percent and 4.2 percent, respectively.

The plastics and articles thereof, rubber and articles thereof group index went up 0.1 percent.

The group index of skins and leather and articles thereof fell 0.2 percent.

The wood and articles of wood group index and the footwear group index were unchanged.

The textiles and textile articles group index increased 0.3 percent.

The articles of stone group index, the base metals and articles of base metal group index and the machinery and mechanical appliances, electrical equipment group index declined 0.1 percent, 0.3 percent and 0.1 percent, respectively.

The vehicles and associated transport equipment group index decreased 1.8 percent. Reductions in the indexes for tractor and radiator for automobile were the main reasons for this fall.

The optical, precision and medical instruments group index had no change.
