Export Price Index in Iran

Azar 1390

(1383 = 100)

The Export Price Index (**XPI**) went up 0.6 percent in Azar 1390* following a 1.4 percent rise in Aban 1390. The index level of 232.4 was 8.9 percent higher than in Azar 1389.

During the first nine months of the current Iranian year, the XPI increased 13.6 percent compared to the similar period in 1389.

The XPI has advanced 12.6 percent over the last twelve months.

The animal products group index and the vegetable products group index rose 0.1 percent and 0.8 percent, respectively.

The group index for animal or vegetable fats and oils increased 1.1 percent which was principally attributed to the advances of the indexes for sunflower oil and soya oil.

In Azar, the prepared foodstuffs, beverages and tobacco group index went up 0.8 percent.

The 2.5 percent increase in the group index of mineral products was mainly due to the rises in the indexes for propane, butane, tar, cement and bentonite powder. Within the mentioned group, the index for paraffin wax decreased.

The products of the chemical or allied industries group index fell 1.5 percent. Decreases in the indexes for paraxylene and detergent powder were the major reasons for this decline. In the mentioned group, increases in the indexes for shampoo, decorative paints and methanole were also considerable.

* The index is computed on the Iranian Rial basis. In this month, the exchange rate of Dollar increased 1.2 percent while the exchange rate of Euro decreased 2.6 percent.

The plastics and articles thereof, rubber and articles thereof group index went down 0.4 percent.

The skins and leather and articles thereof group index decreased 2.9 percent particularly due to the decline in the index for processed sheep skin.

The wood and articles of wood group index and the textiles and textile articles group index advanced 0.3 percent and 0.5 percent, respectively.

As a result of decreasing in the index for safety shoes, the index for footwear group went down 2.6 percent.

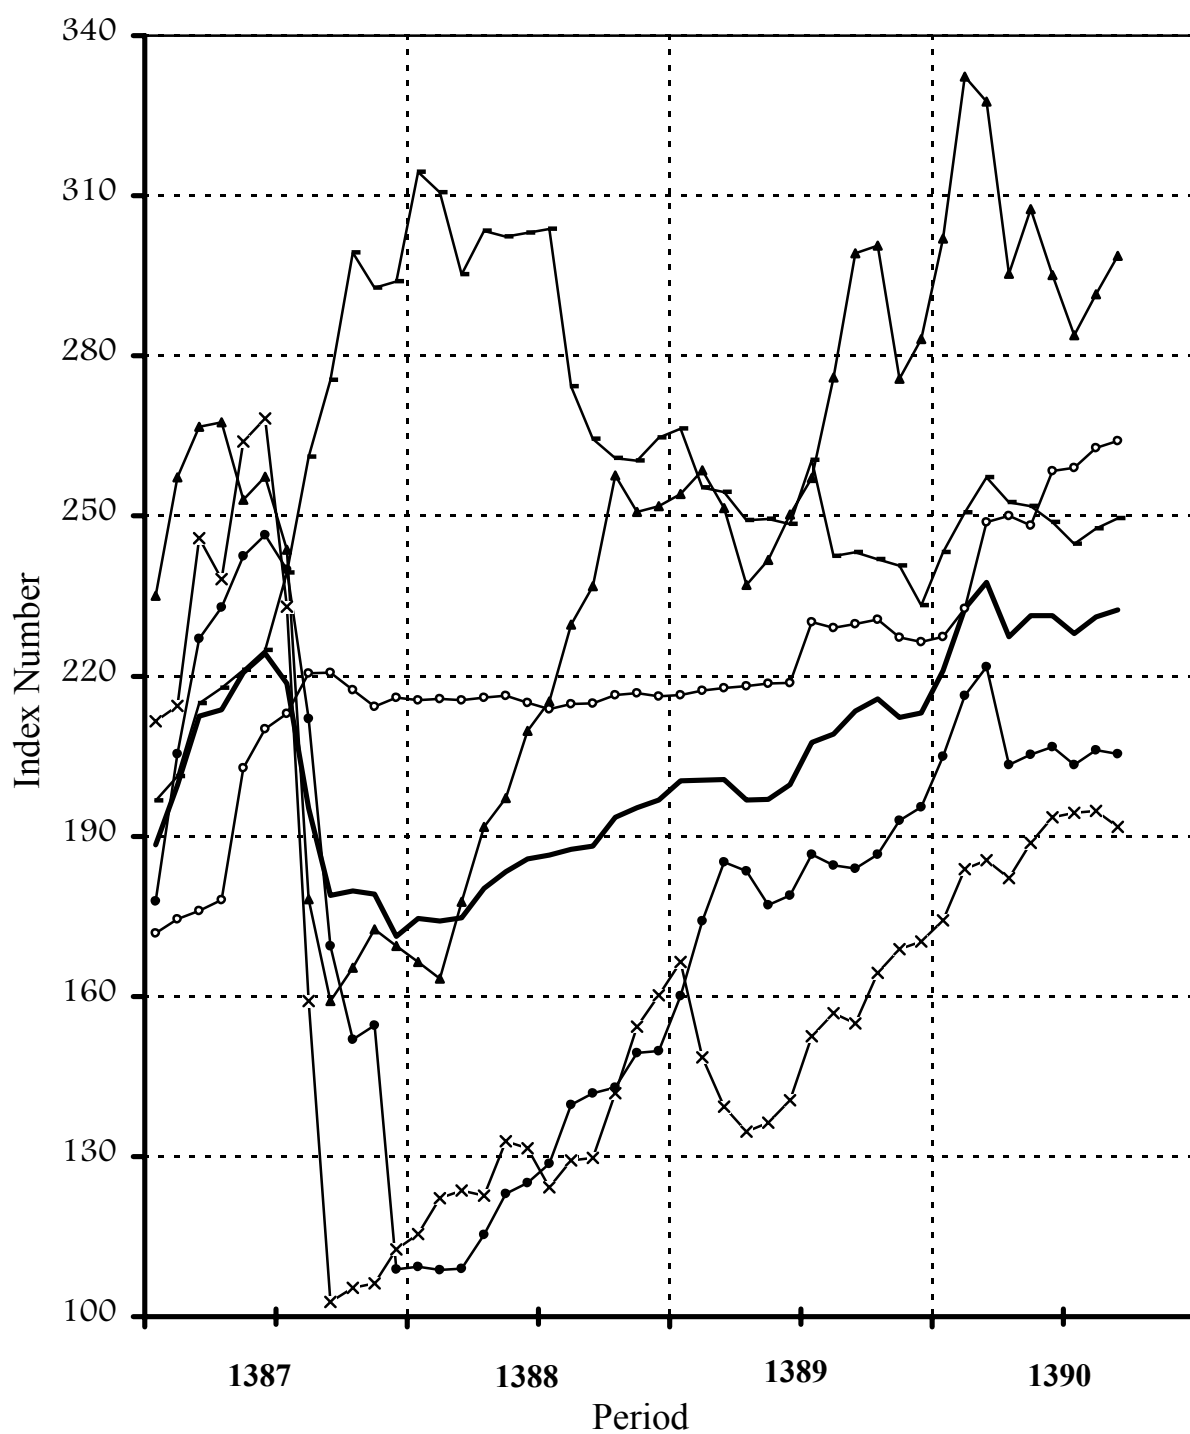

The group index for articles of stone moved up 0.8 percent.

During Azar, the base metals and articles of base metal group index declined 0.3 percent.

The machinery and mechanical appliances, electrical equipment group index and the vehicles and associated transport equipment group index moved down 0.1 percent and 0.4 percent, respectively.

The group index for optical, precision and medical instruments was unchanged.

Export Price Index in Iran (1383=100)
